**KEEP YOUR CAMERA
LOOKING *NEW!***

This handsome saddle-stitched case holds all your Polaroid Highlander Land Camera equipment snugly and safely in place. The padded and lined interior has nine compartments or pockets to store everything from your camera to finished prints. And best of all, everything is at your fingertips. There's no need to dig around for any particular item.

NOTE

Use of drop walls and soft pockets lets you vary the arrangement as shown to meet almost any picture-taking need. For instance, if you plan a heavy schedule of outdoor shooting, your flash gun can be left behind, one compartment wall dropped, and seven rolls of film carried neatly in the enlarged front compartment.
